Subject: New Formaldehyde publication in CRT

Dear Dr. Bahadori,

Thank you and Drs. Ross, Thayer and Jones for taking the time last week to meet with the ACC Formaldehyde Science Panel representatives, Dr. Gentry and me.

I am pleased to inform you that the paper I mentioned, "Does occupational exposure to formaldehyde cause hematotoxicity and leukemia-specific chromosome changes in cultured myeloid progenitor cells?" was just accepted for publication in *Critical Reviews in Toxicology*. I will forward a copy of the paper as soon as it is published.

In the meantime, please do not hesitate to contact me with any questions or if you or your staff need more information.

Best regards,

Ken
